Revision History

Updated Product Capabilities topic.

Overview

Tracer® TU is the service tool that supports Trane BACnet® controls and interfaces. Tracer TU is used to configure chillers with the AdaptiView™ (Tracer UC800 and Symbio™ 800) controls.

Packaged Contents

Part number X4509148201 includes the following items:

- One (1) year software license
- One (1) USB cable for direct connection to Trane controllers

Product Capabilities

You can perform the following tasks with Tracer TU Pro-Chiller View (as supported by the controller):

- Connect to a chiller controlled by UC800, BCI-C, BCI2-C, or Symbio 800 chiller controller via USB cable.
- Monitor chiller status and respond to alarms.
- Create or a chiller configuration and then save it to your hard drive for reuse on multiple chiller units.
- Override chiller outputs.
- Access all of the points that can be overridden on the Manual Overrides screen for troubleshooting and testing (CTV, RTAE, and RTHD).
- Manage Low Level Intelligent Device (LLID) binding, sequencing, replacement, and removal.
- Produce XML-based ASHRAE Chiller and Event Log reports, which are rendered as Web pages and can also be saved in PDF format.
- Back up and restore configuration files and settings with the Backup Utility and the FileTransfer Utility.
- Modify AdaptiView settings.
- Update the controller firmware.
- Manage controller communication settings.

Laptop Requirements

Your laptop must meet the following hardware and software requirements:

- 8 GB RAM
- Windows 10 Version 1709 (Fall Creators Update) operating system (32 -bit or 64 -bit)
- 1024 x 768 screen resolution
- Microsoft .NET Framework 4.8 or later (autoinstalled as required)
- Ethernet 10/100 LAN card
- Microsoft Visual C++ Redistributable for Visual Studio 2015, 2017 and 2019 (V14.2) (auto-installed as required for TGP2/Trane Legacy USB driver)
- An available USB 2.0 port
- Visual C++ 9.0 (auto-installed as required for AFD3 USB driver)

Notes:

- *Tracer® TU is designed and validated for this minimum laptop configuration. Any variation from this configuration may have different results. Therefore, support for Tracer TU is limited to only those laptops with the configuration previously specified.*
- *For optimal Tracer TU performance, the following features are recommended:*
 - 16 GB RAM
 - A 7200 - RPM hard disk drive or a solid state drive
