

Trane Utility Bill Management

Streamlined, automated energy data collection

Utility bill data helps you achieve your operational and sustainability goals

Operations Management

- Establish Budgets
- Determine Payback for Upgrades
- Comply with regulations

Sustainability Metrics

- Report Greenhouse Gas Emissions
- Establish Baselines
- Calculate energy use intensity and energy cost index

How it works

-  **1** Navigate to Trane.com/Utility-Credentials
-  **2** Select your utility name
-  **3** Enter utility credentials
-  **4** System validates credentials
-  **5** Data is continuously collected

We make it easy for you to get the data to achieve your goals

Automated

Fully automated technology saves time and eliminates errors in comparison to manual entry processes.

Timely

Bills are collected by the system as soon as they are available from the utility.

Accurate

Data checks are conducted to ensure the data is robust and trustworthy.

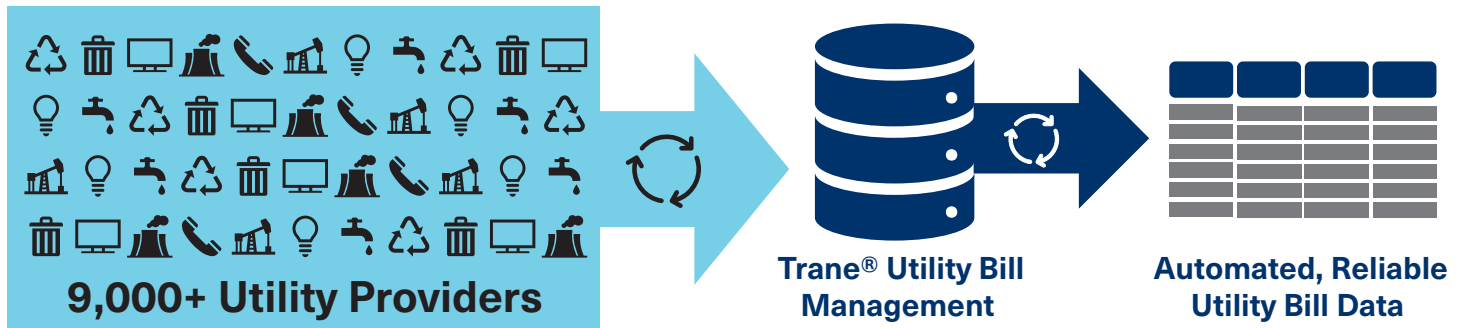

Relevant

The most important data points and time periods needed to perform analysis are collected.

Secure

Industry-leading safeguards protect the security, confidentiality, and integrity of your data.
