

Comprehensive Energy Management Services for Texas Buildings

Optimize Your Building's Energy Performance

Whether you're constructing a new building or upgrading an existing one, managing energy needs can be complex, especially in Texas's deregulated energy market. Trane is here to simplify the process and help you achieve your energy goals.

Why choose Trane?

Our team of building technology and energy solutions experts will work closely with you to identify the best solutions for your specific needs.

We can help you answer critical questions such as:

What are my **energy requirements** based on my operation and goals?

How do I **optimize energy** use in my building?

How do I **manage sustainability** and **reduce emissions** to meet ESG goals?

What we can do.

We provide more than just highly efficient, sustainable HVAC systems. With our expertise in building automation, advanced controls, and smart services, we offer tailored solutions to enhance your building's energy performance:

Comprehensive Facility Sustainability Solutions

Identify whole-building energy improvement programs, as well as high-efficiency or electrified systems and technologies.

Turnkey Energy-Efficient or Electrified Equipment Replacement

Deliver end-to-end installation, replacement, or upgrade of HVAC equipment and systems.

On-going Energy Management and Optimization

Maximize performance and value while minimizing emissions through digital and AI-enabled services.

Rebates and Incentives

Find equipment or energy efficiency rebates and incentives.

Financing and Procurement

Select appropriate financing, funding, and procurement options.

Renewable Energy Integration

Determine how renewable energy and distributed energy resources (DERs) fit into your plan.

Market Navigation

Support navigating electricity market programs and optimizing supply contracts.

Let's work together.

Whether you're evaluating a new building location or planning an upgrade to an existing building, Trane is here to help. Let's discuss how we can assist you in managing energy to reduce costs and emissions.

Visit Trane.com or contact us today to start optimizing your building's energy performance.

Robert Hanvey, Energy Services Account Executive at Trane
