

# Climate Friendly Ice Rink Solutions

## Permanent and Seasonal Rinks

Trane is an advocate of environmental sustainability and a leader in the building industry for reducing energy footprint. Our safe, cost effective solutions are designed for high performance ice rinks without compromising efficiency or reliability. Choose between individual products or get the simplicity of a rink system designed to your specifications. Whatever you decide, our team of account managers, engineers, service technicians and installation professionals will design, transport and supply CALMAC® ice rink floors and ceilings, chillers, air handlers or generators into a smoothly functioning system. Our highly trained service staff is available 24/7 for emergency, equipment rental and customer service support.

### Genuine CALMAC® IceMat® Rink Floor

- Very cost-effective solution to failed systems
- Fast rehabilitation, new ice in about a week
- Excellent ice quality, consistent ice temperature

### Original Aluma-Zorb Low Emissivity Ceiling

- Reduces energy use 20-30%

### HeatMat® Subsoil Heating System

- Prevents subsoil freezing and floor heaving

### Rental Equipment

- Meet or exceed emissions regulations
- Low sound operation and compact design
- Air handlers and generators to meet your power needs

### Next-generation, Lower-GWP Refrigerant

- Reducing greenhouse gas emissions
- Safe and compliant with current and proposed regulations

Trane – by Trane Technologies (NYSE: TT), a global climate innovator – creates comfortable, energy efficient indoor environments through a broad portfolio of heating, ventilating and air conditioning systems and controls, services, parts and supply.
