

IntelliPak[®] 1

(20 – 130 tons)

Designed for today and beyond

Buildings are on a fast track. Keeping up won't cut it—we need solutions that think ahead. IntelliPak[®] 1 is the new generation of Trane's proven performance in rooftop units.

- Improved part-load efficiency meets new industry energy efficiency requirements
- Symbio[®] 800 controller simplifies the complexities of building connectivity—a must-have for remote monitoring and advanced energy management
- Dimensions match the legacy footprint, so replacement units slide right into place
- Sustainable, lower-gwp refrigerant and factory installed leak detection systems

IntelliPak[®] 1 builds upon its legacy of delivering performance, durability, and value.

Refrigeration

- 1 Electronic expansion valve
- 2 eFlex variable speed compressors w/ modulating condenser fans
- 3 Leak detection system

Cabinet

- 4 Double-wall construction
- 5 Convenience outlet

Controls

- 6 Symbio 800 Controls
- 7 7-inch Touch Screen
- 8 Trane XM 70 Expansion module

Airflow

- 9 eDrive direct drive plenum fans
- 10 AMCA-rated ultra low leak dampers (not shown)
- 11 Modulating return / relief fans
- 12 Multiple airflow configurations
- 13 Variety of filtration options
- 14 Traq airflow monitoring

Introduces digital control advantages

The upgraded controller, Symbio® 800, is a major step forward. Its Trane Adaptive Controls™ algorithms keep IntelliPak® 1running—even in the most challenging conditions when other rooftop units might shut down.

- Simplified integration with all common standard building communication protocols, including BACnet® MS/TP, BACnet®/IP, LonTalk™ (optional), Modbus®
- Rugged 7-inch touch screen
- Intuitive navigation simplifies access to data and alarms for quick resolution
- Local scheduling, capable of operating without a building automation system
- Available remote connection to building management system through TraneConnect™
- Optional Expansion modules for increased application flexibility

Carries the best product family traits

From one generation to the next, the best things about the IntelliPak® family stay the same.

- Factory installed and commissioned components for quick, easy installation
- Footprint size consistency so new IntelliPak® models fit exactly onto exiting curbs
- Outstanding IntelliPak® quality and durability
- Responsive Trane service and support
