

Innovation at work.

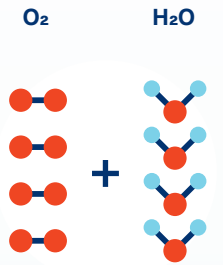

Created to fight **airborne** and on **surface** microbes. Synexis® is a premier provider of innovative Dry Hydrogen Peroxide (DHP™) that fights many viruses, bacteria, mold, odors, and insects.

What it is.

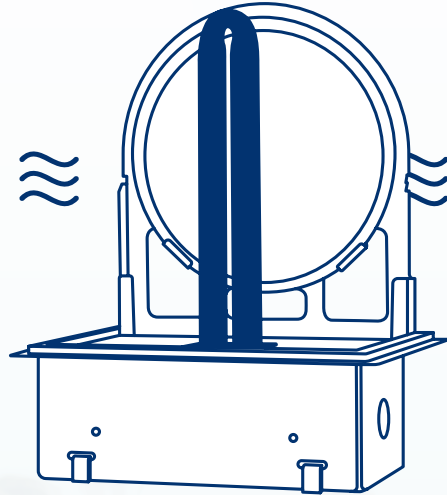

How it works.

What it offers.

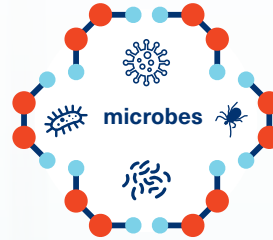

1

Synexis uses naturally occurring humidity (H₂O) and oxygen (O₂) from the air.

H₂O₂ (DHP)

2

It then converts these elements into the gas **Dry Hydrogen Peroxide (H₂O₂ or commonly referred to as DHP)** which then reduces unwanted microbes that may be present in the air and on surfaces.

Improved Air Quality and Surface Cleanliness

3

Continuously improves the indoor air quality and surface cleanliness 24/7/365.

3rd party-tested for efficacy at reducing air and surface microbes

No harmful chemicals or unpleasant odor

Plug & play solution

24/7 continuous operation

Helping bring people back into the building quickly, with proven efficacy and demonstrated safety.

The Blade
installed within HVAC system

The Sphere
Stand alone in-room solution

The Sentry
Stand alone in-room solution

Integrate into your HVAC system or use as a stand-alone unit in any room
