

Tracer Concierge® Systems for VRF

The simple BAS that you can install yourself.

Introducing Tracer Concierge® Systems for Trane® / Mitsubishi Electric CITY MULTI® VRF

Two of the fastest growing HVAC trends today are Variable Refrigerant Flow technology and connected buildings. While many think of BAS for large, complex buildings, the need for advanced controls on all VRF projects is becoming more in demand. To make BAS easy and affordable for light commercial projects, Trane's best-in-class Tracer Concierge® System has been enhanced to support Trane® / Mitsubishi Electric CITY MULTI® VRF with optional Trane Air-Fi® Wireless Sensors.

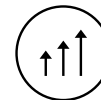

Reduce Risk with Installation Simplicity

- ✓ Set-up wizard provides easy-to-follow prompts and guidance to streamline the process and avoid common mistakes
- ✓ Tracer Concierge Systems connect easily with controllers using open protocols such as BACnet®
- ✓ Ideal for full building connectivity in spaces with a mix of VRF and airside systems on new or existing sites

Establish Market Leadership

- ✓ Offering this affordable solution to bring more visibility into system performance results in improved comfort with reduced operating costs for your customers
- ✓ Exists on or off the cloud. No subscription required for secure, remote access or mobile apps
- ✓ Reduces truck rolls and warranty calls—troubleshoot remotely and improve productivity

Expand Your Customer Opportunities

- ✓ Helps future-proof projects; simplifies future building changes and expansions
- ✓ Secure, remote access makes service easier
- ✓ Secure, web-enabled connectivity opens the door for data-driven performance reporting, energy services and more

Easy for you to install. Easy for them to operate.

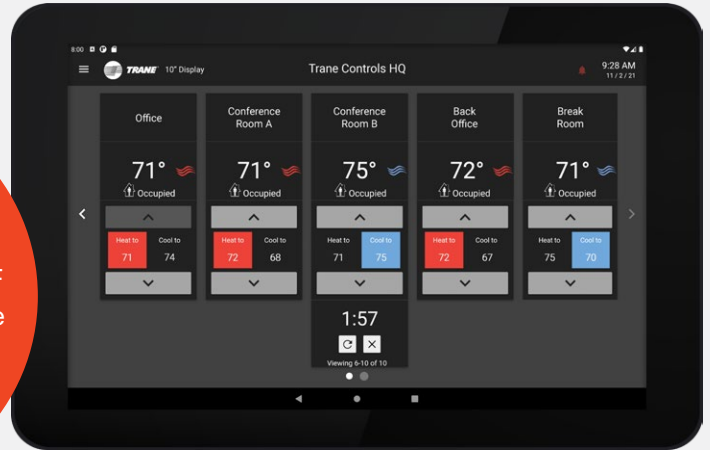

Tracer Concierge® Systems for Trane® / Mitsubishi Electric CITY MULTI® VRF make BAS for VRF affordable and accessible to more of your customers. They optimize performance, simplify installation and make BAS operation so easy anyone can do it.

Control the Entire VRF System.

Variable refrigerant flow systems can seem complicated, but Tracer Concierge Systems package Trane's expertise into one pre-engineered solution.

Tracer Concierge Systems provide enterprise-level command to automate VRF systems' peak performance and energy efficiency—in *small and mid-sized buildings.*

The Tracer Concierge Systems user interface has a straightforward and standardized appearance. The 10-inch touch screen gives any customer supreme confidence in VRF system management.

- ✔ Set-Up Wizard guides you step-by-step through the installation process.
- ✔ Mobile apps provide secure remote monitoring and control for building owners—and you as their service contractor.

Unlock maximum comfort with Trane Air-Fi® Wireless Sensors in every room, providing the greatest flexibility, reliability, and streamlined installation.

Lead your light commercial market in connected, highly sustainable buildings. Contact your Trane Account Manager today.
