

TRANE

XB 1000 Air Conditioner

Beat The Summer Heat With Trane Comfort.

Don't let the heat of summer get you down. Instead, sit back and enjoy cool comfort every day of the summer with an XB 1000 air conditioner from Trane.

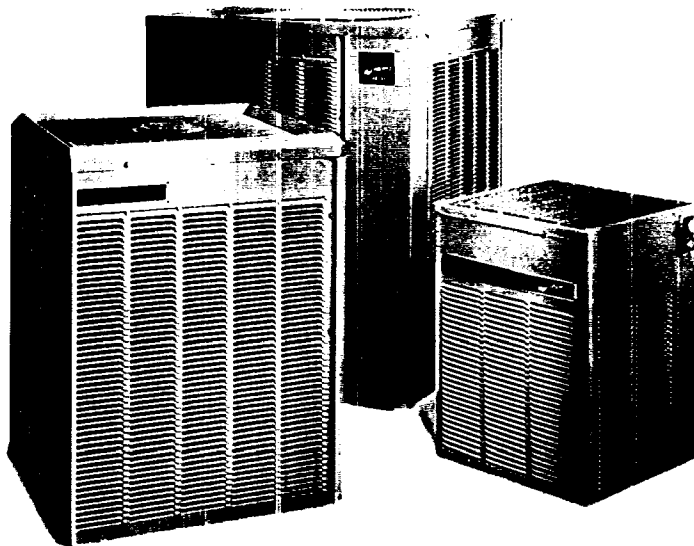

And here's the cool part. The XB 1000 carries a minimum SEER (Seasonal Energy Efficiency Ratio) rating of 10.0. What does that mean? Simple. You can stay cool all summer long and save on your cooling bills.

Made To Withstand The Test Of Time.

Start with Trane's exclusive Climatuff® compressor and Spine Fin™ coil, both backed with 5-year limited warranties. Add other special features like baked-on powder paint. Corrosion resistant screws. Easy to service braze fittings. Full-sided louvered panels. Painted wire grilles. Compact design. Trane designed each component to work together smoothly and efficiently for years to come.

Service Is A Snap.

All electrical and refrigeration controls are located in the same area. Same-side service means easy installation and time-saving service calls. And, corner connections make replacement easy for your installer. Also, louvered panels remove for easy cleaning.

Features That Spell Reliability, Durability And Efficiency.

- Baked-on powder paint
- Corrosion resistant screws
- Full-sided louvered panels
- Climatuff® compressor
- Spine Fin™ coil
- 5-year limited warranty on compressor and coil
- 1-year limited warranty on all other parts
- Optional extended warranties available

Your Trane Dealer Has The Special Training.

When buying a cooling system, selecting the right size is crucial. A unit that's too small lacks the capacity to give you the comfort you want. A unit that is too large costs more to buy and when it short cycles, costs more to operate.

Your local Trane dealer has been trained to help you select the right XB 1000 for your home. So, call him today.

XB 1000 AIR CONDITIONER				
MODEL	NOMINAL TONNAGE	HEIGHT (IN.)	WIDTH (IN.)	DEPTH (IN.)
TTB012C	1	24	18	18
