

Trane SureFit™ Coils

Superior HVAC Coils
Exactly When You Need Them

Trane SureFit™ Coils

Sure to fit your HVAC needs with quickness, efficiency, and precision

At Trane, we know when coils fail, you need replacement parts quickly. We pay particular attention to making sure your order with us will arrive on time. Our sophisticated stocking techniques and dozens of distribution centers ensure rapid delivery. Because we know who has purchased Trane systems and where they are located, we can use data-driven availability to predict need.

Nobody knows coils better than Trane.

The benefits of SureFit™ coils include:

Fast Quotes, Rapid Delivery

Trane offers fast turnaround time in both of the crucial areas: time-to-quote and time-to-delivery.

- Quotes in a matter of minutes for ~97% of orders; 24-hour quotes for nearly all other cases
- Customer-relevant coils stocked and distributed from more than 200 parts centers
- Parts and materials for configured coils stocked in 11 fabrication centers to assemble your custom coil as quickly as possible

Extremely High-Quality Coils

True-OEM coils engineered and built by the people who designed your equipment meet the high standards your Trane equipment needs to continue to perform optimally.

- A rigorous testing process that ensures the highest quality for each coil
- Special care with packing and shipping to make sure your coil arrives free of any damage
- Exact fit when you go to install your coil

Expert Assistance

Our team of experts is here to support you through your entire repair or replacement process, including after delivery.

- Assistance with measurement (including on-site)
- Time-consuming tasks such as researching which replacement coil is the right one for your application
- Help determining what supplementary products will ensure a complete repair

Streamlined Ordering

Trane can provide all the products you need to complete your job, shipped together with your coil, to streamline your ordering process and help you save time.

- Our complete line of supplementary items packaged with your coils from brazing materials to refrigerant
- All materials arrive at your job site together in a convenient and efficient manner

High-quality coils and fast delivery for reliable replacement and rapid repair.

Coils For Most Aftermarket Needs

Trane products can be part of a wider portfolio of products serving your HVAC needs, so we offer non-Trane aftermarket coils.

- Business simplification through enabling you to order all your coils from the same trusted source
- The same rigorous quality-assurance testing for Trane aftermarket coils as our true-OEM products
- Any coil Trane supplies you will meet or exceed the original specifications

Over 100 Years Of Experience

Trane's accumulated expert knowledge—more than a century—has resulted in many advancements in coil technology.

- Superior design features inside and out
- Proven capabilities and reliability through tests in our research facilities and in the field
- Design features that add up to unbeatable performance for a variety of applications

We take pride in our exceptional manufacturing standards that surpass the industry standard. An ill-fitting coil or one that arrives damaged can result in expensive delays and unhappy customers. The Trane brand is synonymous with quality, and we work hard to create the best possible products. Trane far surpasses our competitors in arriving at replacement-part solutions for your HVAC system coil needs.
