

DuraGrid and EcoPad Condenser Equipment Pads

Features and benefits - Black Pearl ECOPAD

- No heavy equipment needed for installation: 80% lighter than pre-cast concrete.
- Less installation time: No concrete forming, finishing or cleanup.
- Qualifies toward LEED® project point requirements
- Molded with quality recycled materials
- Outperforms other value-priced plastic pads on the market
- Solid wall construction won't chip or crack
- Accepts bolts and screws for easy anchoring
- Chemical resistant
- UV stable, impervious to sunlight and extreme HOT or COLD temperatures

The best value environmentally friendly pad for new construction and replacement installations

Features and benefits - DURAGRID

- 80% lighter than concrete
- No cracking, chipping or skidding
- Structure foam process increases rigidity allowing plastic to function like wood for drilling
- Contractors prefer the DuraGrid which is more rigid and robust through the use of additional material in the walls and grid work
- UV inhibitors insure long lasting color and durability
- Underneath gridwork allows for quick and easy installation and leveling
- Footers: DuraGrid: 4 to 8 depending on size
- Dimension markings on all four sides
- Nestable stacking, rounded corners
- Strength: DuraGrid 250 lb/sq ft
