

It's Coil Replacement Season

Don't let your heating equipment fail during freezing weather. Replacing old and deteriorating coils now can reduce downtime, restore lost energy efficiencies, and avoid increased operating costs.

Trane makes it easy. We can help you identify the right coil from either the unit or the coil's serial number – whether it's for a Trane air handler or standalone application. Trane coils are rigorously tested and certified with AHRI Standard 410.

Our technical expertise and extensive line of heating and cooling coils allows us to deliver:

- **Direct replacement coils**
- **Dependable 4-hour quote time**
- **Commitment to 10-day standard lead time with optional expediting**
- **Variety of delivery options, including 24 hour cycles**

Reduce the risk of equipment failure during the peak heating season by replacing old and deteriorating coils now – for comfort, commercial and industrial applications. Trane.

Delivering the performance it promises.

Trane – by Trane Technologies (NYSE: TT), a global climate innovator – creates comfortable, energy efficient indoor environments through a broad portfolio of heating, ventilating and air conditioning systems and controls, services, parts and supply.
