

Rental Services for Education

Fulfilling your temporary cooling, heating and power needs

Trane Rental Services can help alleviate some of the operational challenges associated with maintaining your educational facilities. With our wide capabilities in temporary equipment, easy installation and contingency planning, we can help you in challenging areas such as space optimization, limited operational resources and maximizing uptime for effective classrooms and living facilities.

Resource Optimization

As economic conditions fluctuate, budget constraints can be stressful to work through. By utilizing temporary equipment, capital budget dollars can be freed up for other pressing and timely asset investments. You can leverage Trane Rental Service's fleet of temporary equipment to get the service and performance that you need, without an upfront investment in new equipment.

Space Optimization

While undergoing renovations or redistribution of campus facilities, Trane's temporary equipment can provide continuous comfort and indoor air quality without disruption. We offer flexibility in the location and placement of equipment with trailers and equipment that offers lift points for easy handling. Whether you need to lift a unit onto a roof or park it behind a building, temporary equipment from Trane Rental Services allows you to engineer your projects around your buildings, rather than around equipment.

Resource Optimization

As economic conditions fluctuate, budget constraints can be stressful to work through. By utilizing temporary equipment, capital budget dollars can be freed up for other pressing and timely asset investments. You can leverage Trane Rental Service's fleet of temporary equipment to get the service and performance that you need, without an upfront investment in new equipment.

Also, as universities offer programs and classes around the clock and at expanded times of the year, more demands are being put on existing equipment that may not have been designed to meet today's trends. Trane Rental Services will work directly with you to design solutions to meet those demands. Temporary equipment can also ensure that your classrooms and on-campus living areas stay comfortable during scheduled maintenance or repairs of your permanent equipment.

Power Generation

As universities expand their online course offering, the importance of having 24/7 uptime and adequate power redundancy becomes more critical. Trane Rental Services offers standby power programs and contingency planning services that give you peace of mind and help minimize downtime of online tools and programs. The Rental Services power generation fleet ranges from 36 kW to 1.5 MW in size and, with the right plan in place, can be up and running within a few minutes. We're here to help you discuss and plan for these situations.

Available 24/7

Trane Rental Services can help you be prepared for many different situations, including: emergencies, planned maintenance, seasonal needs, and special events. Our team is available to help you at any hour of the day, any day of the year.

Emergency

Continue Educating: Whether you're dealing with a natural disaster, a power outage or equipment that has unexpectedly gone down, Trane Rental Services has 24/7 emergency response. Avoid the costs associated with downtime on any of your facilities by leaning on Trane, your trusted partner to get you through these difficult situations.

Planned Maintenance

Temporary equipment can help you maintain normal operations during your planned shutdown of HVAC, power and/or compressed air equipment in order to conduct maintenance or make major improvements or renovations. When you are planning to improve or renovate, rely on Trane temporary equipment to carry on your business continuity.

Seasonal

As temperatures fluctuate with the change of seasons, so too do the demands of your facility's buildings. Trane Rental Services offers temporary equipment that can meet your cooling, heating and power needs. Whether you need supplemental air conditioning in the summer or heat in the winter, temporary supplemental equipment can fulfill these requirements in a cost-effective manner.

Special Events

From graduation ceremonies to sporting events, Trane Rental Services can help you with reliable temporary power and HVAC equipment. We can manage equipment, service, set up and take down for any event. We also have the largest and most trusted team of service technicians in the industry, who are there to help ensure that your event runs smoothly. Keep your guests comfortable by working with Trane.
