

Ice Storage Equipment Rental

Assurance for Critical Systems

When time is of the essence

An interruption in your ice storage system can cause a range of problems from occupant discomfort to significant costs due to lost productivity. Maintain your operations by bringing in reliable rental equipment quickly during a power outage or equipment failure. Trane has “ice ready” equipment to meet your every need.

The Solution

Support when it matters most

We'll help you generate your contingency plan for any interruption in your ability to make or store ice. A well-considered plan brings in the right equipment, provisioned in advance of a problem and installed as planned, within hours of an event.

Capabilities for fast response

Trane Rental Services has a fleet of more than 1,200 units staged to serve every major metropolitan market in North America within a few hours. We offer onsite equipment standby programs, 24/7 service and support.

Confidence in your ice storage operations, no matter what happens

Trane Rental Services is always there with temporary cooling, heating, air and power.

Developing your plan

We help you anticipate your needs in advance so the right solution is on its way to you immediately. Working directly with facility management, we assess risk and plan accordingly.

The problem-solving is done long before your unexpected event. Our ten-step planning process enables you to put your rental equipment to work as soon as it arrives.

Water-cooled Chillers

Air-cooled Chillers

AC Units and Heaters

Air Handlers

Power Generators

Portable Units

Ten steps to readiness

We'll help you prepare for any equipment contingency

- 1 Financial risk analysis, quantifying the impact of a failure
- 2 Risk assessment, which identifies potential causes of a failure
- 3 Equipment identification, which documents your present equipment
- 4 Prioritization of the most critical loads
- 5 System connection, ensuring connections are pre-installed
- 6 Power availability, which identifies power sources and potential rental needs
- 7 Electrical connection planning, to establish location of temporary connections
- 8 Equipment location plan
- 9 Develop and review the plan
- 10 Implement and evaluate

Call Trane Rental Services at **1.800.755.5115** or contact your local Trane sales office.
