

Building Systems and Controls Training

Trane expertise. Your success.

Targeted learning, direct from the industry experts

The highly successful training programs that prepare Trane technical teams now give you the tools to configure, monitor and control building mechanical systems for optimal performance.

Trane-authorized structured learning

You will develop a high level of proficiency with Trane control systems, systematically covering each subject area. The curriculum includes networking fundamentals in addition to Tracer[®] controls applications and advanced control functions.

Trane University[™] training utilizes innovative teaching technology for instructor-led, distance learning, online courses and supplementary resources provided as part of the curriculum. Interactive and hands-on experience is provided using the latest production models and Trane-developed analytic tools.

Who should attend

Trane-authorized professional education for facility owners and managers, engineers, project managers and anyone who manages building systems

What you will learn

- Networking basics
- Configuration
- Diagnostics
- System management

These instructor-led programs are currently available*, in addition to online courses you can take at your own pace.

- Tracer® Ensemble™ Operation
- Tracer® Synchrony™ Operation
- Tracer® Synchrony™ Advanced Operation
- Tracer® Summit™ System Operation

* Course dates are regularly updated and are subject to change without notice. Please see [Trane.com/traneuniversity](https://trane.com/traneuniversity) for current offerings.

Access to an extensive knowledge base

Instructors have strong controls backgrounds and extensive teaching experience. They have direct access to Trane's product, service and systems engineers and extensive technical reference resources. A controlled laboratory environment, complete with operational Trane control systems, provides an ideal setting for the hands-on approach used in many of our courses.

Trane University is accredited by the International Association for Continuing Education and Training (IACET). Trane University complies with the ANSI/IACET Standard, which is recognized internationally as a standard of excellence in instructional practices. As a result of this accreditation, Trane University is authorized to issue the IACET CEU.

Courses are convenient and it's easy to register

Visit [Trane.com/traneuniversity](https://trane.com/traneuniversity) to browse courses and training packages, and register online at the Trane Education Center, [Trane.com/tec](https://trane.com/tec). Training is available at a Trane facility, local sales office or at your site. Call 855-803-3563 with any questions, or contact us at traneuniversity@trane.com.
