

Outdoor Unit Brand Label Application Instruction Sheet

This brand label application instruction sheet is a guide to installing the logos for an outdoor unit split system correctly. Before installation, please use the appropriate brand labels shipped with the units and affix them squarely on the units according to these instructions and pictures.

Outdoor

1. Locate and remove the brand label from the owner's manual packet.
2. Remove the adhesive backing from the label.
3. Place the indoor unit label  in the position shown below.
4. Starting from the center of the label and working to the edges, press it onto the unit firmly to remove air bubbles and secure the edges.
