Installation

Compressor Replacement Kit for CSHB to CSHC Conversion

KIT08434, Includes

- 1 - Ckt #1 Suction tube assembly, part number 4385-5079
- 1 - Ckt #1 Discharge tube assembly, part number 4385-4933

KIT08435, Includes

- 1 - Ckt #2 Suction tube assembly, part number 4385-5078
- 1 - Ckt #2 Discharge tube assembly, part number 4385-4935

Instructions

1. Remove compressor by following compressor service guidelines.
2. Remove current suction and discharge tube and cut old suction tube at specified location, Figure A.
3. Replace compressor and braze new tube(s) into new compressor. Reconnect LPC (low pressure control) and HPC (high pressure control) as required.
 - It is important that a dry nitrogen purge is used while brazing.
 - Make sure not to overheat service valve. Use a wet rag to cool parts while brazing.
