

Installation Guide

Wall Cover Plate Kit

BAYMTPL103A

PLT04445

Use this kit to cover the wall opening that remains when replacing a horizontally mounted sensor.

Mounting the Wall Cover Plate

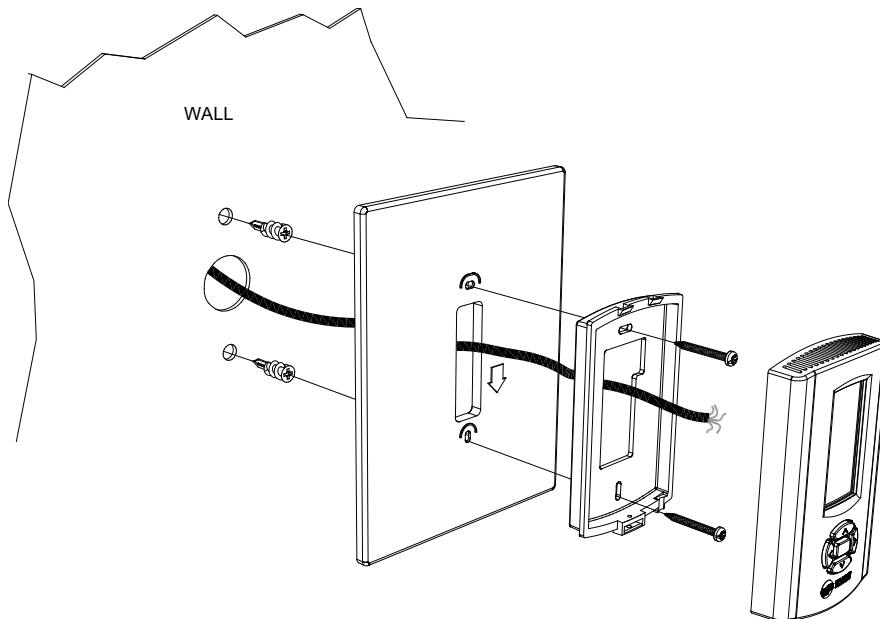

⚠ WARNING

Hazardous voltage!

Disconnect all electric power, including remote disconnects before servicing. Follow proper lockout/tagout procedures to ensure the power cannot be inadvertently energized. Failure to disconnect power before servicing could result in death or serious injury.

To mount the wall cover plate:

1. Hold the plate in position and mark two holes for anchors.
2. Drill two 3/16 in. holes, and gently tap the anchors into the holes until flush with the wall.
3. Carefully pull the wires through the large hole in the wall cover plate.
4. Pull the wires through the sensor back plate.
5. Secure both the wall cover plate and the sensor back plate with the mounting screws that are provided with the sensor.

Literature Order Number	X39641138-01A
Date	August 2008
Supersedes	New
