KITS

TECHNICIAN PPE KIT

Kit Includes:

- White Safety Cap with V-Gard Staz-On Suspension, Trane Part #: CAP01197
- Blue Ratchet Suspension Headgear, Trane Part #: APL00392
- Clear Faceshield Visor, Trane Part #: APL00393
- Clear Lens, Rimless Safety Glasses, Trane Part #: APL00378
- Orange Disposable Corded Foam Earplugs, NRR 33 dB Trane Part #: APL00346
- 25 Person North Bulk First Aid Kit, Trane Part #: KIT16557
- Black Heavy Duty Kneeling Pad, Trane Part #: APL00361
- Baseball Style Bump Cap, Trane Part #: CAP01195
- Folding Earmuff, NRR 25 dB, Trane Part #: APL00347
- Splash Protection Vinyl Apron, Trane Part #: APL00355
- Red Fire Rescue Gear Bag, Trane Part #: CAS01998

Trane Part #	Description
KIT16551	Complete Kit

MANAGER PPE KIT

Kit Includes:

- White Safety Cap with V-Gard Staz-On Suspension, Trane Part #: CAP01197
- Clear Lens, Rimless Safety Glasses, Trane Part #: APL00378
- Orange Disposable Corded Foam Earplugs, NRR 33, Trane Part #: APL00346
- Red Fire Rescue Gear Bag, Trane Part #: CAS01997

Trane Part #	Description
KIT16550	Complete Kit

ARC SHIELD KIT

Kit Includes:

- Arc Flash Protective Face Shield with Hard Hat, Trane Part #: APL00368
- Large Storage Bag for Arc Flash Clothing, Trane Part #: CAS01994
- Faceshield Storage Bag for Arc Flash AS1000 Series, Trane Part #: CAS01995
- Arc Flash Hood, 360 Degree Protection, Trane Part #: APL00362

Trane Part #	Description
KIT16553	Complete Kit

LOCKOUT / TAGOUT KIT

Kit Includes:

- Lockout Hasp, Non Conductive, Trane Part #: LAT00995
- Safety Padlock Red 3" Shackle Keyed Differently, Trane Part #: LAT00992
- Padlock Labels, 6 sets per pack, Reads "DANGER LOCKED OUT DO NOT REMOVE" Trane Part #: LAT00993
- Lockout Tags, 25 per pack, Reads "DANGER DO NOT OPERATE," Trane Part #: LBL00406
- Circuit Breaker, Trane Part #: BKR02330
- Lockout Circuit, Breaker 277V No Hole 1 P, Trane Part #: LAT00994
- Red 5" x 7" Lockout Belt Pouch, Trane Part #: BLL01906

Trane Part #	Description
KIT16552	Complete Kit

EYE PROTECTION

According to OSHA, one of the primary reasons eye injuries occur is from not wearing any eye protection. The Bureau of Labor Statistics (BLS) has reported that nearly 60% of injured workers were not wearing eye protection at the time of the accident. Other reasons eye injuries occur:

- Wearing the wrong kind of eye protection for the job. About 40% of the injured workers were wearing a form of eye protection when the accident occurred. However, these workers were most likely to be wearing eyeglasses without sideshields, though injuries among employees wearing full-cup or flat-fold sideshields did happen as well.
- Flying particles. BLS found that almost 70% of the accidents resulted from flying or falling objects or sparks striking the eye. Injured workers estimated that nearly three-fifths of the objects were smaller than a pinhead. Most of the particles were said to be traveling faster than a hand-thrown object when the accident occurred.

DID YOU KNOW: A faceshield provides adequate protection only when used in combination with the right protective spectacles or goggles.

PROTECTIVE INDUSTRIAL PRODUCTS RIMLESS SAFETY GLASSES Zenon Z12

- Relaxed bridge design fits most wearers
- Thin, flexible temples provide secure fit without uncomfortable pressure points
- Rimless design for light weight
- ANSI Z87+

3M PROTECTIVE EYEWEAR Light Vision

- Dual LED lights provide hands-free lighting. Lights swivel and adjust. Long lasting batteries for up to 50 hours of continuous use.
- High wrap offers additional coverage.
- Soft temples and nosebridge.
- Meets the requirements of ANSI Z87.1-2003.

HEARING PROTECTION

HOWARD LEIGHT BY HONEYWELL FOLDING EARMUFFS

Thunder T1F

- Dielectric construction suitable for all workplaces, especially electrical environments
 - Features patented Air Flow Control technology for optimal attenuation
 - Quick-Click height adjustment remains fixed during wear
 - Snap-in ear cushions make replacement quick and easy
- Folding**
- Convenient folding design for easy storage
 - Folding earmuff belt case also available
 - NRR 25dB

Trane Part #
APL00347

Noise-Induced Hearing Loss is 100% Preventable

Wearing earplugs or earmuffs can help prevent damage to hearing. Exposure to high noise levels can cause irreversible hearing loss or impairment as well as physical and psychological stress. Earplugs made from foam, waxed cotton, or fiberglass wool are self-forming and usually fit well.

Clean earplugs regularly, and replace those you cannot clean.

HOWARD LEIGHT BY HONEYWELL NOISE BLOCKING EARMUFFS

Thunder T3H

- Top of the line protection and comfort
- Non-deforming comfort headband fits all head sizes
- Ventilated inner headband and soft pads for maximum comfort
- Quick-Click height adjustment
- Dielectric design safe for electrical environments
- NRR 30dB

Trane Part #
APL00348

HOWARD LEIGHT BY HONEYWELL DISPOSABLE FOAM EARPLUGS

MAX

Compressible foam rolls up small for easy insertion. Expands in ear canal for a custom fit.

- Smooth surface for comfort and hygiene
- One size fits all
- Preshaped and tapered
- Soil-resistant skin
- Bright orange-red color
- NRR 33dB

Trane Part #	Description
APL00346	Corded

HEAD PROTECTION

MINE SAFETY APPLIANCES

SAFETY CAPS

V-Gard

When you need strong, comfortable head protection. V-Gard protective caps consist of a polyethylene shell and suspension system working together as a protection system. The rigid shell is lightweight and balanced for all-day wearing comfort. The shell is one-piece injection-molded of high-density polyethylene and has high dielectric strength. V-Gard headwear features Fas-Trac suspension.

- Meets all applicable requirements of Z89.1-1997 (Type I, Class E and G).
- Staz-On & Fas-Trac Ratchet Suspension
- Standard Size (6-1/2" - 8")

Trane Part #	Color
CAP01197	White

PROTECTIVE INDUSTRIAL PRODUCTS

BUMP CAPS

Baseball Style

JSP

HardCap A1+® Bump Cap, low-profile baseball style, inner HDPE liner, Non-ANSI, two-tone cap colors with reflective piping, standard brim.

- Inner High-Density Polyethylene (HDPE) liner with foam cushioning offers all round protection
- Size adjustment with elastic strap and clamp action buckle ensures a secure fit
- The protective liner is removable, so the outer cap is fully washable
- Terry cloth sweatband adds comfort and absorption for the wearer.
- Size: One Size Fits All, Adjustable

Trane Part #	Color
CAP01195	Black/Black

PROTECTIVE INDUSTRIAL PRODUCTS

RATCHET SUSPENSION & FACESHIELDS

Headgear for faceshield, blue, ratchet suspension with brow guard, universal attachment.

- Headgear provides protection from splash and flying particles.
- Pivoting feature allows wearer to lift the shield when not in use.
- Adjustable ratchet suspension to provide a snug fit and maximum comfort when worn for long periods of time.
- Exceeds ANSI Z87.1-2003 High Impact Requirements.

Trane Part #	Color	Size
APL00392	Headgear-Blue	One Size
APL00393	Visor-Clear	.040" x 8" x 15.5"

PROTECTIVE INDUSTRIAL PRODUCTS

BUMP CAPS

Low-Profile

JSP

HardCap A1+® Bump Cap, low-profile baseball style, inner HDPE liner, Non-ANSI, two-tone cap colors with reflective piping, short brim.

- Inner High-Density Polyethylene (HDPE) liner with foam cushioning offers all round protection
- Size adjustment with elastic strap and clamp action buckle ensures a secure fit
- The protective liner is removable, so the outer cap is fully washable
- Terry cloth sweatband adds comfort and absorption for the wearer.
- Size: One Size Fits All, Adjustable

SAFETY

NORTH BY HONEYWELL

BULK FIRST AID KITS

Kits contain economic bulk supplies that can be readily accessed when needed. They are ideal for manufacturing settings where a wide variety of first aid items are required. All kits are weatherproof and are available in plastic or metal. All North bulk kits are ANSI 2308.1-2009 compliant.

Trane Part #	Description
KIT16557	25 person bulk first aid kit

NOTRAX

HEAVY DUTY KNEELING PAD

- Backing: Rubber
- Material: Nitrile/PVC Sponge Blend
- Thickness: 1"
- Width: 12"
- Length: 22"

Trane Part #	Color
APL00361	Black

ERGODYNE

FIRE RESCUE GEAR BAG

Arsenal 5020

Fire and Rescue Duffel Bag: Straightforward equipment storage.

- 600D nylon body material
- Heavy duty ribbed straps top and side
- Heavy duty #8 zippers
- Removable adjustable shoulder strap & strap grabber
- Two end zipper pockets
- Small: 12" x 24" (2600co)
- Medium: 13" x 29" (3800ci)

Trane Part #	Size
CAS01997	Small
CAS01998	Medium

WEST CHESTER

LIGHT BLUE NON SKID SHOE COVER

Standard Weight Spunbond Polypropylene shoe covers offers lightweight protection against dry particulates. Used to keep dirt off or on the shoe.

Features:

- Non-skid surface on bottom of sole to reduce slipping.
- Roomy construction to fit most shoe sizes.

Applications:

- Manufacturing, pharmaceuticals, cleaning, food processing, construction, medical.

Trane Part #	Color
APL00423	Light Blue

PROTECTIVE CLOTHING

ERGODYNE

CLASS 2 SUPER ECONO VEST

GloWear 8205HL

Class 2 Super Econo Vest: Mesh fabric, Hook & loop closure, no pockets.

- ANSI-compliant polyester mesh (3.3 oz.)
- 2" Level 2 ANSI-compliant tape

Trane Part #	Size	Color
APL00398	L/XL	Lime
APL00399	2X/3X	Lime

WEST CHESTER

PosiBA MICROPOROUS BASIC COVERALL

PosiWear BA: Breathable Advantage - Proprietary technology against dry particulates and liquid sprays without sacrificing breathability.

Features:

- Full length zipper front and exceptional strength for easy donning.
- Extremely low linting.
- Elastic waistband for improved fit

Trane Part #	Size	Color
APL00406	XLarge	White
APL00407	XXLarge	White

PROTECTIVE INDUSTRIAL PRODUCTS

SAFETY VEST

SafetyGear

Hi-visibility surveyor's vest, solid front, mesh back, zipper closure, 4 pockets, contrast tape and MC tabs.

- Polyester fabric
- 4 external pockets: 2 upper, 2 lower
- 2-inch silver contrast reflective tape
- ANSI 107 Class 2

Trane Part #	Size	Color
APL00388	Large	Yellow

WEST CHESTER

SEWN EDGE APRON BLUE

High quality virgin vinyl aprons provides excellent resistance to acids, alkalis, solvents, chemicals, oils, fats, grease and salt.

Features:

- Roomy 35" width to fit comfortably around waist.
- Sewn edge.
- 6 mil

Applications:

- Cleaning, food processing, maintenance, manufacturing

Trane Part #	Size	Color
APL00405	35" x 45"	Blue

HAND PROTECTION

WEST CHESTER NITRILE SOLVENT GLOVES

Nitrile Unsupported Chemical Gloves. Soft flock lining is comfortable and helps wick away sweat. Textured palm provides good grip.

- Soft flock lining helps wick away sweat
- Extra long cuff helps protect forearms
- Textured palm for greater grip and durability
- 15 mil

Trane Part #	Size	Size
APL00401	Large	9

WEST CHESTER NITRILE DISPOSABLE GLOVES

Lightly powdered for easy on and off. Rolled cuff. Reversible style fit. Light Blue. Textured for added grip.

- Ambidextrous design fits right or left hand. Loose fit a round wrist for comfort.
- Nitrile provides stretchable snug fit
- Rolled cuff provides easy on and easy off
- Nitrile disposable gloves

Applications:

- Great for working with oils and solvents

Trane Part #	UoM Quantity	Size
APL00402	Package of 3 pairs	One Size Fits All

WEST CHESTER CUT RESISTANT GLOVES

Rugged HPPE fiber is 10 times stronger than steel and 40% stronger than blended fabrics. Excellent cut protection in a comfortable glove.

- ANSI 2 = 776gms
- Gray HPPE fiber shell with gray polyurethane coating
- Seamless knit shell, silicone free
- Machine washable

APL00415	Large	9
APL00416	XLarge	10
APL00417	XXLarge	11

HAND PROTECTION

There are a few different methods now in use to determine a glove's level of cut resistance—and, to everyone's frustration, they bear no relation to one other! Each standard—ASTM (U.S.) and EN 388 (Europe),—uses a different protocol and rating scale—so it's important to know what scale is in use. After all, a "Level 2" glove by ASTM standards could actually provide a higher level of protection than a "Level 3" glove, measured by EN 388 standards.

ANSI/ISEA 105-2005 Mechanical Ratings						
Rating	Level 0	Level 1	Level 2	Level 3	Level 4	Level 5
Cut Resistance Grams*	0-199	200-499	500-999	1000-1499	1500-3499	3500+
Abrasion resistance in Cycles**	0-99	100-499	500-999	1000-2999	3000-9999	10,000-19,000

*Weight needed to cut through material with 25mm of blade travel. **Abrasion ratings 0-3 are based on measurements with a 500-gram load. Levels 4-6 are measured with a 1,000-gram load.

	ASTM (CPPT & TDM)	EN (Couptest)
Blade Motion	Slicing  (New blade each cut)	Rotating  (Same blade cuts control, then sample)
Force on blade	Variable 0-6000 grams	Constant 500 grams
Cuts per sample	15 (x3 samples)	5 (x2 samples)
Detection method	Electrical contact	Electrical contact
Measured Property	Distance of blade travel	Cycles to failure
Test results	Force vs. Distance (grams per cm)	Cut resistance compared to cotton ex. "Level 3" is 3x more resistant than cotton

ANSELL

CHEMICAL RESISTANT NITRILE GLOVES

AlphaTec

- Designed for superior protection against splash and/or full immersion exposure to a wide variety of chemicals and liquids. Also deliver varying levels of cut and abrasion resistance for added protection in rugged environments.
- Color: Burgundy
- Thickness: 13 mil
- Length: 14"

Electrical safety PPE

Important

Your seat at the table

Irreplaceable

Come Home Safe.

Your profession relies on you to operate safely among electrical and arc flash hazards. Your family relies on you to come home safe. No one can coax your child into eating vegetables, wipe spaghetti off faces or make your spouse smile the way you can.

Salisbury understands how important you are to the lives that depend on you. You can rely on Salisbury to provide you with head to toe PPE solutions that keep you safe. We are committed to your protection with electrical safety solutions that have been trusted for over 150 years.

SALISBURY

ARC FLASH PROTECTION

No matter how good the equipment, there is always a chance of arc flash occurring when an electrician works on a switch gear, or even just turns it on. Temperatures of an arc flash can reach upwards of 35,000 degrees in less than a second, burning a person directly or causing ignition of non-flame resistant clothing or the melting of clothing into skin. So, it is very important to understand the risk element of that brief but highly potent unwelcome event and make sure all workers protect themselves as much as possible, according to current NFPA (National Fire Protection Association) 70E standard.

Keeping workers as safe as possible from arc flash is an entire way of thinking involving safe practices (including lockout/tag out and signage in compliance with the NEC requirements), use of insulated/insulating hand tools, insulating rubber gloves with leather protectors, and arc flash personal protective clothing, all conforming to prevailing industry-recognized standards.

For example, a FR (flame retardant) related lab coat, even one that falls below the knees, may not be enough. That coverage would not necessarily protect an electrician from an arc coming from a lower piece of equipment. A ball of fire could roll up underneath. Rather, an individual needs 360 degrees of protection that an arc flash suit or coverall and hood would afford.

SALISBURY BY HONEYWELL

FACESHIELD STORAGE BAG

For Arc Flash AS1000 Series

Cotton canvas storage bag with drawstring closure & fleece interior, for AS1000 series products.

Part #	Color

- Pouch dimensions are 4 3/4"H x 7 1/2"W x 2"D.
- Material Description: Heavy Duty Nylon

Trane Part #	Color
BLL01906	White on Red

Lockout/Tagout (LOTO) is a critical safety standard that impacts virtually all workplaces that have energized equipment. Also known as OSHA's Control of Hazardous Energy regulation (29 CFR 1910.147), the Lockout/Tagout standard keeps employees and machine operators safe from the unexpected energization (or startup) of machinery and equipment during servicing or maintenance.

The standard requires workers to go through a specific set of de-energization procedures and safety practices that ensure the equipment will not accidentally start or release stored hazardous energy. According to OSHA, the Lockout/Tagout standard prevents an estimated 120 fatalities and 50,000 injuries annually. However, it continues to be among the top ten most cited OSHA violations for general industry

IDG Safety Zone Display

Feature Notes:

Safety First! There is no shortcut to maintaining a safe work environment. The IDG Safety Zone display is the starting line for safety products for HVAC technicians working in the field.

Product questions:

Trane Category Management: Pam Jambois
IDG Vendor Support: Don Cole

Display Notes:

- This is designed to be a 48" gondola section though it can be modified for placement on a 36" section or endcap.
- Bump Cap and Hard Hat on set on special wire "hat stand" fixtures available from IDG at cost.
- Alternate cap and hat display is on a 10" or 13" (max) deep shelf. Ensure placement is such that product does not extend beyond top of fixture and gloves below are still easily accessible.
- Use 8" pegs for all pegged items.
