Salisbury by Honeywell Arc Flash Protective Faceshields

Salisbury by Honeywell's NEW revolutionary AS1200HAT is a Weight Balancing Arc Flash Protection Face Shield, that stows in a balanced, compact position, centered over the top of the hard hat when not needed. The AS1200HAT has an ATPV rating of 12cal/cm2 and utilizes nanotechnology to provide a more transparent window for improved visibility. The shield/window is designed to be easily replaced without tools. The faceshield unit includes ventilation ribs that allow a natural convection air flow through the top of the face shield. This reduces fogging of the visor, lowers CO2 levels and improves comfort for the user.

- AS1200HAT - Hard Hat and Faceshield
- AS1200 - Faceshield Only

Trane Part#

APL00368 AS1200HAT

Salisbury by Honeywell Large Storage Bag

For Arc Flash Clothing

For storing Salisbury Pro-Wear® Arc Flash Clothing, gloves and other accessories.

Salisbury by Honeywell Cotton Liners for Lineman's Gloves

Liner Gloves enhance the comfort of wearing Rubber Insulating Gloves in every season. Liners provide warmth in the cold season and absorb perspiration in the warm months. The knit wrist style grips the wrist rather than allowing the cuff to roll down and bunch at the palm. All liners are made from stretch fabric that can fit any hand size. The LMKC Series is light, airy and allows ease of movement.

All Purpose Cable Lockout

Non-Conductive Nylon Cable

Cable lockouts are incredibly versatile making them perfect for all of your unusual energy isolating devices that are difficult to lock out. Compact, lightweight body is made of rugged impact modified glass filled nylon giving them superior chemical, corrosion and temperature resistance properties. Includes nonconductive nylon (1/8" diameter) cable. Ergonomic design makes it a "cinch" to tighten cable - hold device in one hand and cinch tight with the other! Built-in cable loop keeps cable neatly coiled when stored and prevents it from dangling loose when device is being used. 4 lock holes in handle accommodate most lock shackles and hasps. Additional 8', 12', 16' and 20' cables are sold separately.

| Trane Part# | Part # | Length |

Brady USA

Universal Multi-Pole Breaker Lockout

- Brady's universal multi-pole breaker lockout is a single device that can be used with most major multi-pole breakers that employ a tie bar. This device is easy to use, and will give you the security you need to keep your energy source locked out.
- It is made from durable glass-filled nylon with a stainless steel screw. This versatile device is compatible with most name-brand manufacturers, such as GE, ITE, Sylvania, Cutler-Hammer, Challenger, Bryant, Siemens, Square D and General Switch Company.
- To use, just secure the clamp lockout over the tie bar by tightening the thumbscrew and insert padlock to prevent the clamp from being loosened.
- UL Rating: 94-HB

| Trane Part# | Part # | TDS No | Color | Pkg. Qty. |

Brady USA

Multi-Pole Breaker Lockouts

Universal

Universal multi-pole breaker lockout is made of durable impact-modified nylon and is compatible with most two or three pole breakers with a tie-bar such as GE ITE, Sylvania, Challenger, Bryant, Westinghouse and General Switch Company. Simply tighten thumbscrew to clamp lockout securely over tie bar, then insert lock to prevent clamp from being loosened.

Common Specifications:

- Multi-Pole Universal

3M N95 Particulate Respirator 8210

Disposable

Provides a minimum 95% filter efficiency against certain solid and non-oil based aerosol particles to meet NIOSH 42 CFR 84 N95 requirements. Maintenance-free construction features adjustable nosepiece with foam strip to reduce potential eye wear fogging. Top and bottom head straps hold respirator securely in place. Advanced Electret Media with electrostatically charged microfibers help make breathing cooler and easier. Ideal for grinding, sanding, bagging and applications involving substances that do not contain oil. Not recommended for asbestos or sandblasting. NIOSH Approval No. TC-84A-0007.

Made in USA of US and globally sourced components

Safety Caps

Staz-On & Fas-Trac Ratchet Suspension
V-Gard

When you need strong, comfortable head protection, try V-Gard slotted caps on for size. V-Gard protective caps from MSA consist of a polyethylene shell and suspension system working together as a protection system. The rigid shell is lightweight and balanced for all-day wearing comfort. The shell is one-piece injection-molded of high-density polyethylene and has high dielectric strength.

V-Gard headwear features advanced styling in cap style, with the cap available in three sizes: small (6"-7 1/8"), standard (6 1/2"-8"), and large (7 1/2"- 8 1/2"). Meets all applicable requirements of Z89.1-1997 (Type I, Class E and G).

Powdered Nitrile Disposable Gloves

PosiShield

Lightly powdered industrial grade disposable nitrile disposable gloves are perfect for persons with latex allergies. Stretches for snug sensitive fit and maximum dexterity. Textured for added grip. Great for working with oils and solvents.

- Ambidextrous design fits right or left hand. Loose fit around wrist for comfort. Rolled cuff and lightly powdered prevents tearing when pulling off and on.
- Made from component materials that comply with Federal Regulations for Food Contact: 21CFR, 170-199.

Showa Best Glove

Disposable Nitrile Gloves

Accelerator Free - Powder Free
N-Dex

Best's NightHawk® disposable Nitrile glove is the newest member of our patented N-DEX® family of USA Made gloves. NightHawk is free of both Natural Rubber Latex proteins and rubber accelerators making it one of the world's least allergenic gloves. The textured fingertips provide excellent grip even in oily environments.

NightHawk gloves also feature excellent Electrostatic Dissipative properties making it ideal for many electronic applications. Ideal for jobs where the going gets messy or the application calls for uncompromising tactile feel and touch, NightHawk is perfect for workers in automotive, electronic assembly, laboratory, law-enforcement and security environments.

- 4 mil thick, 9.5" long, 100% nitrile disposable glove, accelerator free, powder free, rolled cuff

North by Honeywell

Cut Resistant Gloves

Dyneema - Bi-Polymer Coated Palm

NorthFlex Light Taske Plus 5

- ANSI Cut level 3
- High performance cut-resistant glove that gives up nothing in wearer comfort.
- Features and Benefits:
 - Highly advanced seamless liner contains Dyneema® yarn that is cool, stretchy and amazingly light providing excellent comfort and superior dexterity.
 - 13 gauge liner also contains glass fiber for enhanced cut resistance.
 - Bi-polymer coating is a blend that combines the most desirable properties of nitrile and PU (polyurethane) to provide a surface that is mechanically tough, grippy and flexible.
 - Black and dark blue colors hide grime making this glove a highly practical choice for the dirtiest of jobs.
 - Fully launderable for extended use.
 - The back of the glove is un-coated, for ventilation and wearer comfort.
 - Cuff over-stitching is color-coded by size to reduce sorting time after laundering.
 - Suited to applications requiring a moderate to high level of protection from cut hazards combined with a high degree of dexterity and feel, such as material handling and assembly work involving sharp objects like sheet metal, metal shavings, glass and metal parts, for example; sheet metal fabrication, machine shops, glass industry, automotive and other assembly work.

Protective Industrial Products

Evaporative Cooling Towel

Ez-Cool

Ideal for use in hot environments for protection from the stress of high temperatures.

When activated simply in a small amount of water, the amazing fabric feels cooler than the ambient temperature and will remain cool for hours. You may cut the towel size and wrap around your head, neck, wrists or use under a ventilated cap. If it dries out just add water, give it a quick wring and it's ready to continue cooling.

- Advanced Poly Vinyl Alcohol (PVA) material absorbs water and sweat efficiently and remains active for hours
- Natural evaporation provides a cooling sensation delivering comfort in warm environments
- Rinse the EZ-COOL® towel prior to use and wrap around neck, head, or wipe down other pulse points for an exceptional cooling effect
- Designed to be used over and over again; when it begins to dry out, simply rinse again
- You may customize by cutting to size or to share
- Machine or hand washable
- Great storage container; store product in between uses to keep clean
- Extended cooling lasts 1 to 7 days, depending upon ambient conditions
- Cooling properties can be reactivated for the life of the product; May be used over and over again

Cleaner/Degreaser

A151 Cleaner/Degreaser

A-151 works its way into hard-to-reach areas, cleaning equipment and parts thoroughly. End-User Safety Tip: A-151's high flash point above 140°F allows use in areas where flammability poses a potential problem.

- High flash point above 140°F (60°C)
- Low odor
- No rinsing and no residue
- Replaces ozone depleting solvents and hazardous air pollutants such as MEK
- Does not contain 1, 1, 1 trichloroethane
- Nonconductive
- Safe to use on most surfaces - prolonged contact with aircraft transparencies should be avoided
- Inverta Spray Valve
- Meets USDA requirements for K2
- Meets these requirements: Pratt & Whitney SPOP 208; McDonnell Douglas CSD #1; Boeing D6-17487 Rev. H; Learjet LAS 1239

Applications: Aircraft Fuselages, Brake Backing Plates, Brake Drums, Brake Lining, Clutch Assemblies, Disc Brake Pads, Electric Motors, Generators, Springs, Starters

Contact Cleaner

Non-Flammable
Revo 66

Moderate to heavy-duty electrical contact cleaner that is non-flammable with low odor. Fast evaporating, no rinsing, and no residue. For circuit breakers, switches, connectors, and contacts.

- Non-flammable precision cleaning
- Unique alternative to HCFC cleaners
- Does not contain brominated solvents
- Ideal for removing dirt, moisture, flux or oxides from the internal components of electronic equipment
- Fast evaporation
- Non-conductive
- Quick penetration
- No rinsing and no residue
- Safe to use on most surfaces, but may be harmful to some plastics
- NSF registered Category Code: K2, Registration #140245
- Comforms to CARB VOC regulations

CRC Industries

QD Contact Cleaner

A petroleum distillate and alcohol blended precision cleaner suitable for sensitive electronics. QD evaporates quickly, leaves no residue and is safe to use on all plastics. QD Contact Cleaner contains no Class I or Class II ozone depleting chemicals.

- Quick drying, leaves no residue, safe on all plastics
- Effectively removes soil and other contaminants from electronic components
- Ideal for applications where lower flashpoint solvents can be used
- NSF K2 Registered for use in meat and poultry plants
- Compliant in all states.

| Trane Part# | Part # | Size |
|-------------|--------|----------------------|
| CHM01239 | 03130 | 11oz Aerosol Net Wt. |

LPS

No Flash Electro Contact Cleaner

- No flash point
- Non-Flammable
- No rinsing and no residue
- Quick penetration
- Quick evaporation
- Safe to use on most surfaces-may be harmful to some plastics
- Does not contain chlorinated solvents
- NSF certified: K2 registration #131303
- Inverta Spray Valve Meets or exceeds these specs: McDonnell Douglas CSD#1 Boeing D6-17487 Rev. P Learjet LAS 1239 NSN 7930-01-436-7971 (15 oz.) USDA-K2

Contact Cleaner

Industrial
HF™

- Petroleum distillate-based precision cleaner that offers the safety of a high flashpoint without leaving a residue
- It may be used on most plastic materials
- HF Contact Cleaner contains no Class I or Class II Ozone Depleting Chemicals
- High flashpoint-142°F TCC (Tag Closed Cup)
- Leaves no residue
- Penetrates into minute spaces for thorough cleaning action
- Authorized by USDA for use in federally inspected meat and poultry plants
- Drying Time: Moderate-Slow
- Dielectric Strength (Volts): 43,600
- Safe on Plastics: May be harmful to some plastics
- M.S.D.[L.]™: Yes
- USDA Rating: K2
- VOC Content (Federal): 753 g/l

Cleaners & Degreasers

LPS

PSC Plastic Safe Cleaner

Contact Cleaner

PSC Plastic Safe Cleaner is formulated to clean oxides and other contaminant build-ups on electrical contacts. It also cleans electrical assemblies made of plastic and metal leaving no residue.

- Electrical contact cleaner
- Cleans electrical parts without harming plastics
- Nonflammable
- Plastic safe
- Fast evaporating
- Nonconductive
- Replaces HCFC 141b Contact Cleaners
- No residue
- Conforms to CARB VOC requirements
- NSF certified: K2 Registration # 129002

Meets or exceeds these specs:

- Learjet LAS 1239
- Net wt: 18 oz. (511 grams), Pack: 12

| Trane Part# | Part # | Size |
|-------------|--------|----------------------|

K2 Electronic Cleaner

Food Grade
DETEX

- NSF® Registered K2 # 146516
- Removes dirt, moisture, and oxides from electronic equipment
- Plastic safe and ideal for cleaning delicate precision mechanisms
- Rapidly evaporates, leaving no residue
- Manufactured for the food industry and safe for use in all plant areas when food is not being processed
- Metal detectable plastic components
- VOC Compliant in all 50 states
- Ideal for use on off-line electronic components

Applications: Breakers, Connectors, Contacts, Controls, Digital Equipment, Office Equipment, Printed Circuits, Switches

| Trane Part# | Part # | Size |
|-------------|--------|----------------------|

All Purpose Degreasers

Butyl-Free
HYDROFORCE®

Butyl-free cleaner that is versatile enough for all of your cleaning tasks, but strong enough to attack and remove tough dirt, dust and grime deposits. HYDROFORCE Butyl-Free outcleans many competing aqueous cleaners containing butyl. Perfect for facilities seeking an efficacious all-purpose cleaner with maximum regulatory compliance.

- Biodegradable and concentrated
- Non-corrosive, non-abrasive
- Non-flammable, safe on most plastics
- Floor wax safe
- NSF A1, C1 registered for use in meat and poultry plants
- Shipped in case quantity only

| Trane Part# | Part # | Size | Pack |
|-------------|--------|-------------|------|
| CHM01246 | 14401 | 30 oz. Pump | 12 |

LPS

Precision Clean Multi-Purpose Cleaner Degreaser

- Super industrial strength removes tough stains and soils
- Water-based
- Biodegradable
- Alkaline formula inhibits flash rusting
- pH concentrate = 13; pH ready-to-use = 12.5
- Does not contain butyl, chlorinated or petroleum solvents, bleach, ammonia or abrasives
- Rinses clean
- Safe on all surfaces except magnesium
- NSF certified category code C1 registration #059854

| Trane Part# | Part # | Size |

LPS

EVR Clean Air Solvent Degreaser

- High solvent strength, Fast evaporating, Low VOC content
- Complies with CARB/OTC (California Air Resources Board/Ozone Transport Commission) VOC regulations
- Not a Hazardous Air Pollutant (HAP), Instant cleaning action
- Excellent replacement for Methyl Ethyl Ketone (MEK)
- NSF Certified C1 Registration #141139(aerosol)
- Ideal for cleaning metals, No residue, No ozone depleting compounds
- Inverta Spray Valve

| Trane Part# | Part # | Size |
|-------------|--------|----------------------|
| CHM01215 | 05220 | 14oz Aerosol Net Wt. |

LPS

Non-Solvent Degreaser

T-91

- Contains no solvents
- Premium performance cleaning ability
- "Green": Recognized by U.S. EPA's (Environmental Protection Agency) Design for the Environment (DfE) Requirements
- Zero VOCs per CARB/OTC/LADCO: 0 g/L
- VOC content per SCAQMD: 0 g/L
- Biodegradable, non-flammable
- Listed in the USDA BioPreferredSM Catalog
- Non-toxic, low odor
- Proprietary formula
- Efficient: requires less product than traditional solvents to get the job done
- Ideal for traditional solvent cleaning, basin style part washers and dip tanks
- Moderate foam for effective mechanical cleaning
- Acceptable for use in Canadian Food Processing Establishments

| Trane Part# | Part # | Size |
|-------------|--------|-------------------|
| CHM01221 | 06328 | 28oz Spray Bottle |

LPS

Solvent/Degreaser

F-104[®]

- Heavy-duty cleaner/degreaser
- 104°F (40°C) flash point
- Controlled evaporation
- Safe to use on most surfaces
- Non-conductive
- No rinsing
- No residue
- Inverta Spray Valve

Applications:
Air Compressors, Aircraft Structures, Bonding Prep, Cables, Chains, Cowlings, Cranes, Electric Motors, Forklifts, Gasoline Engines, Gears, Landing Gear, Machine Tool Clean Up, Power Tools, Terminals

Meets these requirements: Airbus ABR 9-0140 Type I, Boeing D6-17487 Rev.L, LearJet 1239J, Complies with the Aerospace NESHAP for wipe solvents

| CHM01213 | 04920 | 15oz Aerosol |

CRC Industries

Non-Chlorinated Degreaser

Heavy Duty
Chlor-Free®

Innovative, heavy duty non-chlorinated degreasing solvent. Excellent for use where rapid turn-around is necessary and low flashpoint solvents can be used.

- Fast drying to help minimize down-time
- Leaves no residue
- Non-conductive and non-corrosive
- Penetrates quickly to remove oil, grease and other contaminants
- Shipped by the case only

| Trane Part# | Part # | Size |
|-------------|--------|------------------------------|
| CHM01243 | 03189 | 16 oz Non-Aerosol w/ Trigger |

CRC Industries

Electronic Degreaser

Utilizes advanced COzO^l technology to combine the power of a high performance, industrial strength degreaser with the safety that modern regulations demand. The non-chlorinated non-conductive, non-corrosive, non-staining formula quickly dissolves grease, oil and sludge.

- No flash or fire point
- Contains no chlorinated solvents
- Evaporates quickly, leaves no residue
- Contains no Class I or Class II Ozone Depleting Chemicals
- NSF K2 Registered for use in meat and poultry plants
- Test on plastics
- Not labeled for use in California

| Trane Part# | Part # | Size | Units Per Case |
|-----------------------|--------|---------------|----------------|
| CHM01240 ¹ | 3215 | 16 oz Aerosol | 12 |

CRC Industries

Citrus Degreaser

A unique, d-Limonene and petroleum blended, heavy duty degreaser that is extremely effective for dissolving and removing grease, oil, lubricants and contaminants without requiring water wash off and without leaving a residue. Citrus Degreaser is non-corrosive, non-abrasive and non-staining. It features a pleasant citrus scent and has a 360° spray valve which allows the user to spray in any direction.

Recommended for the effective removal of grease, oil, corrosion, sludge, adhesives and tar from air tools, mechanical brakes, clutches, chains, wire rope, motors, parts, bearings, generators, and compressors.

- Leaves no residue
- No Class I or II Ozone Depleting Chemicals: offers strong alternative to 1, 1, 1-Trichloroethane products
- Compliant in all states

| Trane Part# | Part # | Size |
|-------------|--------|----------------------|
| CHM01247 | 14170 | 15oz Aerosol Net Wt. |

LPS

PreSolve Orange Degreaser

- High performance industrial cleaner which cleans on contact
- Ideal for removing grease, tars and oils
- Fast acting, deep penetration
- Natural based
- Does not contain chlorinated solvents
- Flash point above 100°F
- Non-conductive
- Low residue
- NSF registered category code C1 registration #129025 (aerosol), #059830 (bulk)
- Safe on all metals and most plastics
- Inverta Spray Valve
- Not for retail sale in CA, NJ, CT, DE, IN, ME, MD, MA, MI, NY, RI, VA, OH, PA, IL, NH, District of Columbia

CRC Industries

3-36 Lubricant & Corrosion Inhibitor

Multi-Purpose

Petroleum-based compound that forms a clear film that lubricates and protects against corrosion and wear. It penetrates and seals out moisture, attacking rust and prevents corrosion.

Advantages:

- VOC compliant in all 50 states
- Multi-purpose lubricant, penetrant and corrosion inhibitor that displaces moisture and leaves a thin, long-lasting film.
- Penetrates through corrosion, loosening frozen parts
- Lubricates surfaces without leaving a sticky residue
- Cleans light soils from surfaces, leaving a corrosion resistant barrier
- NSF H2 Registered for use in federally inspected meat and poultry plants
- Equipped with the 360° Spray Valve for added convenience

Applications: Process Manufacturing - Heat treated parts, Machined surfaces, Finished welds, In-process aluminum extrusions. Machining - Fixtures, Dies, Jigs, Shim stock, Chucks, Drill rod. Material Storage - Tubing, Castings, Gears, Weld rod and wire.

Maintenance - Air actuated tools, Conveyors, Frozen joints, Locks, Hoists

Silicone Mold Release

Heavy Duty

Superior lubrication that provides maximum releases. Formulated for difficult to remove molded parts.

- Heavy-duty silicone content (5%)
- Efficient, economical and effective for faster molding
- Colorless, odorless, non-staining, non-corrosive
- Helps avoid mold buildup
- Effective temperature range (up to 600°F)
- Meets FDA Regulation 21 CFR 175.300 (release agent)

SP-400 Corrosion Inhibitor

Heavy Duty

Long-term indoor/outdoor corrosion inhibitor for machined surfaces and assemblies subjected to long periods of storage or adverse shipping conditions. SP-400™ is an easily removable film that will provide protection of all equipment subject to heat, humidity, chemicals or severely corrosive atmospheres.

- Firm, waxy film is highly resistant to humidity and salt spray and never becomes brittle
- Long term protection (up to 2 years outdoors) for all metals during shipment or extended storage
- Waxy film seals out moisture completely

LPS

LST Low Surface Tension Penetrant

End-user education tip - LST's "Low surface tension" is the measurement of a liquid's ability to "bead" or form droplets. The higher the tension the more likely it is to bead up on a surface and not penetrate. LST's extremely low surface tension results in instant spreading, consistent coating and deep penetration.

- Formulated with low-surface tension for fast penetrating action
- Attacks rust and corrosion to free frozen parts
- Powerful foaming action provides complete surface coverage
- Displaces moisture, Lubricates and protects metal surfaces
- Flash point of 175-degrees F
- Inverta Spray Valve
- Meets or exceeds these specs: Federal Spec. VV-P-216C Type 1, AA-50493 Type 1
- Net wt.: 11 ounces
- NSF certified H2 registration #059851

| Trane Part# | Part # | Size |
|-------------|--------|----------------------|

LPS

KB 88 - Super Strength The Ultimate Penetrant

- Formulated to attack and quickly release rusted and corroded nuts, bolts, hinges and other frozen components
- Enhances penetration, lubrication and corrosion attack
- Extremely high solvency
- Low surface tension
- Special additives
- Outperforms the competition in independent lab tests
- Penetrates faster and deeper than most other similar products in the market place
- Meets many local, state and federal VOC regulations, such as those of the California Air Resources Board (CARB)
- NSF certified: H2 registration #138553

3M Scotch Super Vinyl Electrical Tape 33+

Super 33+ is conformable for cold weather application to 0°F (-18°C) and is designed to perform in a continuous temperature environment up to 220°F (105°C). An aggressive adhesive and elastic backing enables Super 33+ to easily conform to irregular surfaces for moisture tight electrical and mechanical protection. Super 33+ provides flexibility and easy handling for all around

All-weather tape design - Best adhesion and handling in all weather conditions - Makes job easier and eliminates redos

Resists weather, UV resistance 1', abrasion, and corrosion - Long lasting - Lower maintenance cost

Far exceeds minimum agency requirements. Tape Thickness: 7 mil

UV resistance: Exceeds UL150 requirements

Typical Applications: Primary insulation for splices up to 600V. Protective jacketing Spec./Certification and Listings: A-A-55809, ASTM D-3005 Type 1, UL listed 539H and CSA certified LR48769

3M

3M Scotch Super Electrical Tape 88

Premium grade heavy-duty, 8.5-mil, flame retardant, cold, resistant tape with superior cold-weather handling features. Extra thickness provides added electrical properties, quicker insulation buildup and abrasion resistance. Remains conformable on cold days, even at 0°F and has an operating temperature range to 220°F. Resists UV rays, moisture, alkalis, acids and corrosion. Meets requirements of ASTM D-3005 Type II, UL 510, MIL-I-24391B and CSA 22.2. Other widths and lengths available upon request.

Line Set Tape 1507

Venture Tape

- A printed UV resistant polypropylene film with a solvent acrylic "CW" adhesive system. This adhesive performs well in either sub-zero cold or tropical temperatures. Designed to perform in direct sunlight, this product is UV resistant and UL Listed.

Applications: Primarily used for taping line sets. Works well on foam pipe insulation used in line sets. 1507 is waterproof, weatherproof and designed for outdoor use.

- Thickness: 3.0mil
- Elongation: 21 percent
- Service temperature: 0°F to 180°F

3M

General Purpose Cloth Duct Tape 1500

Venture Tape

- A high strength, premium quality polyethylene coated cotton cloth tape coated with an aggressive, high tack, natural rubber pressure sensitive adhesive system. Adheres well to sheet metal duct and conforms well to corners and irregular surfaces. Will not curl when unwound.

Applications: Vapor sealing sheet metal ductwork and general purpose heavy duty service.

- Thickness: 10.0mil
- Elongation: 18 percent
- Service temperature: 0°F to 200°F

| Trane Part# | Part # | Size | Color |

Tapes, Adhesives & Caulks

3M

FSK Insulation Tape 1525CW

Venture Tape

• Tri-directionally reinforced with a 2x3 fiberglass scrim, UL 723 listed foil/scrim/ kraft lamination. This tape conforms well to both fibrous ductboard and blankets. Coated with a special cold weather, acrylic, pressure sensitive adhesive system, 1525CW combines superior quick stick at normal temperatures with superior low temperature performance.

Recommended for use down to -40°F (-40°C) as well as normal and very high temperatures. This is the ultimate in cold weather tapes.

- Thickness: 9.5mils
- Elongation: 2 percent
- Service temperature: -40°F to 240°F

| Trane Part# | Part # | Size | Color |

3M

Mastik Duct Sealing Tape 1580P

Venture Tape

• 1580P is a printed, 2 mil annealed aluminum foil coated with a heavy mastik adhesive. 1580P meets UL181B-FX requirements, and excels in demanding temperature and humidity environments. Provides superior performance and durability. Hand tearable and conformable.

Applications: Indoor/outdoor, instant water resistant bond on sheet metal, flex duct and duct wrap vapor barriers.

- Thickness: 17mils
- Elongation: 5 percent
- Service temperature: 35°F to 200°F

| Trane Part# | Part # | Size | Color |

3M

Flexible Duct Closure Tape 1599B

Venture Tape

• Printed 3 mil, UV resistant polypropylene film with a cold weather acrylic adhesive system. This adhesive performs well in either sub-zero cold or warm temperatures. Meets or exceeds all requirements of UL181B-FX related to closure systems for flexible air ducts and air connectors. 25/50 rated for Flame Spread and Smoke Development.

Applications: Primarily used for sealing flexible air ducts, air connectors, for securing flex ducts to duct wrap facings and for metal and metal to metal connections. Adheres well to rubberized foam pipe insulation.

- Thickness: 3mils
- Elongation: 130 percent
- Service temperature: -40°F to 185°F

| Trane Part# | Part # | Size | Color |
|-------------|--------|------------|--------|

3M

Fire Barrier Caulks

A premium, intumescent latex-based caulk offering outstanding fire performance plus a non-halogen formula.

- Water base - easy cleanup, no special handling, routine disposal
- Intumescent - expands when heated to choke and seal around items consumed by fire
- Endothermic - releases chemically bound water to cool exposed surfaces
- No-sag formulation
- Fast-dry - tack-free in approximately 10 - 15 minutes
- Paintable (best results obtained after 72 hour cure)
- Brown color
- Water seal - seals against water spills in the unexpanded state
- High caulk rate: 1000 g/min. with 1/4" nozzle
- Point contact allowed
- Continuous operating temperature not to exceed 120°F (48°C)
- UL listed, FM approved, ULC listed, PA registered to ISO 9002 certificate no. A1147

Hand Chain Hoist

Series 622

- Simple, efficient, economical design
- Equipped with hardened load chain for flexibility and long wear
- Compact design, low headroom and lightweight steel construction for easy installation, even in confined spaces
- Weston-type load brake requires no lubrication
- Hand wheel cover with guide slots minimizes jamming and slipping
- Forged swivel hooks with latches reduce twisting of chain and unintentional unhooking of load when chain is slack
- Standard hand chain drop is 2 feet less than lift (example: 8 foot lift hoist has 6 foot hand chain drop)
- One-year warranty
- Metric rated
- Import

2 Ply Nylon Web Sling

Flat Eye - Tuff Edge
Type 3 & Type 4

- Sling webbing has its surface yarns connected from side to side, which not only protect the core yarns, but positions all surface and tensile yarns to work together to support the load
- Wear to damage to Sling Webbing face yarns cause an immediate strength loss. This is why Sling Webbing has red core yarns to visually reveal damage and act as a basis for sling rejection
- Nylon and polyester are seriously degraded at temperatures above 200°F
- Prolonged exposure to ultraviolet light adversely affects nylon and polyester. Slings become bleached and stiff when exposed to sunlight or arc welding
- Many chemicals have an adverse effect on nylon and polyester

Type 3

Type 4

Eye Type

Type 3 - (EE) - Flat Eye slings are very popular and can be used in all three types of hitches. They are easier to remove from beneath the load than sling types, 1, 2 and 4. Unless type 4 is requested, type 3 will be supplied as the standard EE sling.

Type 4 - (EE) - Twisted Eye slings are similar to Type 3 except the eyes are turned 90° to form a better choker hitch. The eyes of a Type 4 nest better on the crane hook.

- TUFF-EDGE Advantages and Benefits: Red Core yarn warning system aids in the inspection process; Proven sling web construction; Polymer coated edge yarns resist cutting and abrasion to extend sling life; Silver colored web treatment fights abrasion for additional sling life; 30% more resistant to edge cutting; 67% more resistant to edge abrasion; and Tuff-Tag provides required OSHA information for the life of the sling, not just the life of the tag

Endless Roundsling

Polyester - Tuflex

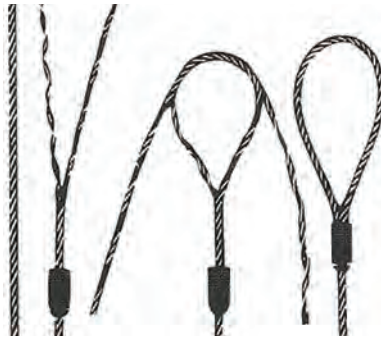

Tuflex Endless (EN) the most versatile Tuflex roundsling maintains all the basic Tuflex features plus promotes safety and save you money.

- Load stability and balance can be achieved by spreading sling legs
 - Wear points can be shifted to extend sling life
 - The most flexible style of sling
- When ordering Tuflex Polyester Roundslings specify sling code. Specify sling length in feet (bearing point to bearing point). Endless style Tuflex is made to a tolerance of (± 1" minimum tolerance) and can stretch 3% at rated capacity.

Note: Matched lengths of slings must be specified at time of order.

Rated Capacities (lbs):

VEN-PRC005A-EN June 2015

Product Use and Technical Information: Many factors beyond Ingersoll Rand's control and uniquely within user's knowledge and control can affect the use and performance of a Start to Finish product and the performance of a product in a particular application cannot be guaranteed. User is responsible for evaluating the product and determining whether it is fit for a particular purpose and suitable for user's method of application. Carefully read the product directions for specific instructions on use and safety precautions.

Limited Warranty and Limited Remedy: Ingersoll Rand warrants that each Start to Finish product will be free from defects in material and manufacture for 90 days from the date of purchase from Ingersoll Rand's authorized distributor. INGERSOLL RAND MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE AND EXPRESSLY DISCLAIMS SUCH WARRANTIES. If a Start to Finish product does not conform to this warranty, the sole and exclusive remedy is, at Ingersoll Rand's option, replacement of the Start to Finish product or refund of the purchase price.

Limitation of Liability: Except where prohibited by law, Ingersoll Rand will not be liable for any loss or damage arising from the Start to Finish product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted.
